

THE ORGANIC FEDERATION OF CANADA NEWSLETTER

### **Subscribe to CanReg List, the listserv of the Organic Federation of Canada**

The OFC Listserv, named CanReg List and maintained by the *Certified Organic Associations of British Columbia* (COABC), is one of the main communication tool that the OFC uses to reach Canadian organic stakeholders and share information mainly about organic regulations and standards.

We publish and distribute on our listserv the [InfoBio](#), a bilingual monthly newsletter to update the sector on the rules and standards that apply to organic production in Canada, and about the scientific research that relates to organic agriculture.

When registering to OFC Listserv, you will also have the opportunity to comment the regulatory and standards issues with the other subscribers.
